

Subject : Text, Web and Social Media Analytics (HDSC801)

Sem : VIII (A.Y. 2024-25)

IAE - 1 QUESTION BANK

1. Text Mining & algorithms useful for text mining
2. Opinion mining & challenges
3. Different approaches of Named Entity Recognition (NER)
4. Text Summarization
5. Supervised learning methods for Text data mining
6. Information Extraction of text with examples
7. Challenges in text mining in social media
8. Markov random fields & Conditional random fields
9. Unsupervised Information Extraction
10. Methods of text clustering
11. Feature selection and transformation methods
12. Statistical learning algorithms for NER
13. Text representation methods
14. Decision tree classifiers for text classification
15. Weakly Supervised Learning Methods for less training Data
